

## Nation's Largest Distributor of High Density Polyethylene Pipe Locates in Martinsburg

Issue 2, February 2010

ISCO Industries dedicated its new distribution facility with the help of community leaders and Congresswoman Shelley Moore Capito on February 1, 2010. ISCO purchased 8 acres with a 55,000 SF building on Mid-Atlantic Blvd in Martinsburg. They will be distributing high density polyethylene pipe to the entire east coast from this facility. ISCO Chief Operating Officer, Mark Kirchdorfer said he chose Berkeley County because of the strategic location along I-81. Other important factors were the business-friendly community and the available local workforce.

ISCO Industries

## New at the Development Authority

### Development Authority has New Website

The Development Authority is pleased to announce the launch of its new Website. The new site can be accessed at [www.developmentauthority.com](http://www.developmentauthority.com)

### Property Database

While you are visiting the new website..... don't miss the Property Search. It includes a Property Submission Form so Developers and Realtors can add their own Berkeley County properties to a widely searched site.
